The Goal

The start of a new tradition in Vancouver – where learning and connections sparks **momentum**.

Showcase Microsoft365 Innovation

Discover the latest in Teams, SharePoint, Power Platform, AI-powered Copilot and more impactful Microsoft tools transforming the future of work and digital collaboration.

Learn from Microsoft MVPs and Experts

Gain insider insights and proven practices from Microsoft MVPs, architects, and industry leaders on leveraging Microsoft 365 technologies.

Drive Growth and Partnerships

Connect with decision-makers to build alliances and discover new opportunities within the Microsoft 365ecosystem.

Engage and Empower the Community

Be part of a rapidly growing Microsoft 365 network that advocates for collaboration, knowledge-sharing, and trust among users, partners, and Microsoft 365professionals.

About the **Organizers**

Drawing from our experience in **building impactful tech communities** across Australia, Spain and Mexico, our organizing teams is dedicated to making a lasting impact in Vancouver by connecting businesses and partnerships. We are committed to drive growth and empower local professionals to upskill through education and certifications.

- 2023 The Microsoft 365 community in Vancouver was largely inactive with minimal collaboration among members.
- 2024 Van365View was created to revamp the Microsoft 365 user groups. In June, 2024, our first community event was organized.
- 2025 After one year of successful events, we have decided to further our footprint by hosting our first, highly-anticipated M365 summit with a long-term goal of growing and elevating the quality of the community in Vancouver and across Canada.
